STRATEGIC PLANNING AD HOC COMMITTEE  
**MINUTES**  
May 26, 2022 – 2:00 PM  
Council Chambers  
2020 Hampton Street, Columbia, SC 29204

COMMITTEE MEMBERS PRESENT: Jessica Mackey Chair; Paul Livingston and Chakisse Newton

OTHERS PRESENT: Michelle Onley, Anette Kirylo, Leonardo Brown, Ashiya Myers, Patrick Wright, Abhijit Deshpande, Angela Weathersby, Kyle Holsclaw, Justin Landy, Randy Pruitt, Stacey Hamm, Jennifer Wladischkin, Dwight Hanna, Zachary Cavanaugh, Dale Welch, Lori Thomas, John Thompson, Bill Davis and Aric Jensen

**CALL TO ORDER** – Chairwoman Jessica Mackey called the meeting to order at approximately 2:00 PM.

**APPROVAL OF MINUTES**

- a. **May 3, 2022**
- b. **May 5, 2022**

Ms. Newton moved to approve the May 3<sup>rd</sup> and May 5<sup>th</sup> minutes as distributed, seconded by Mr. Livingston.

In Favor: Livingston, Mackey and Newton

The vote in favor was unanimous.

**ADOPTION OF THE AGENDA** – Mr. Livingston moved to adopt the agenda as published, seconded by Ms. Newton.

In Favor: Livingston, Mackey and Newton

The vote in favor was unanimous.

**ITEMS FOR DISCUSSION** –

- a. **Strategic Planning Work Shop Report (Draft)** – Ms. Mackey noted they have the redlined edits to the strategic plan draft before them. She inquired if there were any other recommended edits/revisions to the document before it is forwarded to Council.

Ms. Newton inquired if the core value “proactive” should be changed to “proactivity” to match the wording format of the other items. She noted initiative 6.6 “Notify Council members about planned activities and events in their districts” could easily be moved to one of the objectives under Item 5 – Public Engagement. Part of the reason to notify Council would be so they can ensure the public knows what is happening.

Ms. Mackey inquired if there was a specific objective number.

**Strategic Planning Ad Hoc Committee  
May 26, 2022**

Ms. Newton responded Objective 5.4 and remove the extra word “development”. She noted she did not recall the following language: “Upon adoption of the Lower Richland Tourism Plan, implement land use components into comprehensive plan by year-end. Create a Comprehensive Plan dashboard that includes statistics related to the plan and its various initiatives.” She inquired if this meant there would be a Comprehensive Plan Dashboard only for the Lower Richland Tourism Plan or something that would be considered more broadly for the Comprehensive Plan.

Ms. Thomas responded they are looking to have a dashboard for the entire strategic plan and other items across the County. She suggested taking the contextual information and sending that to the departments as a metrics.

Ms. Newton was in agreement. She suggested using a more meaningful word than “growth” in the mission statement.

Ms. Thomas inquired if changing the mission statement to “Richland County will be a leading community creating equitable, sustainable, and meaningful opportunities for a high quality of living for all residents.” will address her concerns.

Ms. Newton responded yes, that would address her concerns.

Ms. Mackey noted there was a new section added to the document entitled “Strategic Goals for Richland County Economic Development Strategic Plan”. It was noted Economic Development already had its own strategic plan prior to this process. She suggested adding the Economic Development Strategic Plan to ensure we are monitoring both plans.

Ms. Newton inquired if the Economic Development Strategic Plan was adopted by Council or just presented to Council.

Ms. Mackey requested staff to update the document based on their comments. She inquired about what the next steps will be.

Mr. Livingston stated they do not have to meet again to discuss the changes.

Ms. Mackey stated, after they receive Council’s approval, they need to meet to discuss the timeline for the initiatives, dashboard and framework, how often we would meet and what reporting would look like.

Ms. Newton suggested having a work session as a way to avoid elongating a Council meeting, and allow a hybrid meeting with staff and committee discussing future steps.

Mr. Livingston moved to go forward with a work session, and the forward to Council for adoption of the plan, seconded by Ms. Newton.

In Favor: Livingston, Mackey and Newton

The vote in favor was unanimous.

**ADJOURNMENT** – Ms. Newton moved to adjourn, seconded by Mr. Livingston.

In Favor: Livingston, Mackey and Newton

The vote in favor was unanimous.

The meeting adjourned at approximately 3:33 PM.

## EXECUTIVE SUMMARY

The draft vision, mission, and strategic goals listed below are proposed statements that are tailored to the needs and desires of County Council members per the November 2021 and January 2022 Strategic Planning Retreats. It is at the discretion of the County Council to adopt this language or alter it to represent the appropriate vision, mission and strategic goals for Richland County.

An organization's **Vision Statement** is aspirational in nature. It defines what the organization wants to be or to achieve. It is an idealized description of the desired future state of the community. The County Council members completed a structured visioning activity, using photographic imagery to spark conversations and develop concepts regarding their shared vision for Richland's future.

### Draft Vision Statement

“Richland County will be a leading **(community or County)** creating opportunities for equitable, sustainable, and meaningful growth and living for all residents. The County will be a foundation for collaboration as we learn from the past and continue to create long-lasting impacts into the future.”

A **Mission Statement** describes the organization's purpose. It defines the "business" of the organization and its relationship with its customers.

### Draft Mission Statement

“The County Government is dedicated to providing exceptional public services through effective planning, proactive leadership, and inclusive governance to ensure that all residents, visitors, and businesses have equitable opportunities and improved quality of life today and in the future.”

The six **Strategic Goals** identified during the strategic planning workshop are listed below.

### Draft Strategic Goals

- 1) Foster Good Governance
- 2) Invest in Economic Development
- 3) Commit to Fiscal Responsibility
- 4) Plan for Growth through Inclusive and Equitable Infrastructure
- 5) Achieve Positive Public Engagement
- 6) Establish Operational Excellence

## INTRODUCTION & BACKGROUND

At the request of the County Council and Senior Leadership, Baker Tilly US, LLP (“Baker Tilly”) organized and facilitated an initial, one-day strategic planning workshop for the County Council and Senior County staff in November 2021. This planning workshop was Richland County Council’s first such workshop conducted in many years and the first for the current elected and appointed leadership team.

In a series of interviews with members of the County Council, the County Administrator and Assistant Administrators, and Department Heads, participants provided input on the strategic challenges and opportunities to discuss in the strategic planning retreat.

### County Council Interview Summary

The following topics provide an overview of key themes throughout County Council and Department Head interviews.

- **Strategy:**
  - Clear goals and measurable objectives are not currently established
  - There is potential to tie strategic goals to capital projects in the future
  - There is an opportunity to incorporate health and well-being as a component of the strategic plan
  - There is a desire to be a key leader in economic development and innovation long-term, etc.
- **County’s Public Image:**
  - There is a desire to repair the County’s public image and tell the story of the County
  - Opportunities exist to improve website and social media presence
  - There is an interest in providing the people of the County “something exciting” to talk about
  - Opportunities exist to update infrastructure and County facilities, etc.
- **Communication:**
  - Opportunities exist to improve and enhance communication within the County and external to the County
  - There can be an increase in communication between the Council and Departments
  - There is ability to collaborate more closely between departments and provide cross training to staff, etc.
- **Engaging Citizens:**
  - The County aims to provide quality services in a timely fashion to constituents
  - Increase opportunities of bringing the government to the people by going out into the field
  - Leveraging technology to improve the level of service, etc.

- **Engaging Staff:**
  - o Opportunity to improve workplace culture to engage staff more
  - o Desire to continue to maintain a highly inclusive work culture with an equity-based experience for all
- **Recruiting & Retaining Employees:**
  - o The current hiring process is fairly time consuming
  - o Current pay is not competitive for County staff positions, resulting in recruiting and retention challenges
  - o There is room to develop the organization to allow for pay increases
  - o Recent tier changes have made pay changes increasingly difficult

## County Staff Focus Group

Using a "Plus/Delta" table below, Baker Tilly captured the sentiments of appointed County Directors and their staffs. These individuals provided their views on the current state of the County prior to the strategic planning workshop. Throughout these facilitated conversations, various groups of Directors and staff described areas that should be addressed in the strategic plan. Themes identified regarding current positive areas or strengths are shown as "plusses." Participants also provided constructive suggestions for improvement or change shown as "deltas." This input was captured on the tables shown below:

(What is going well?)

- ✘ Richland County is uniquely positioned economically and geographically
- ✘ Many high quality, resourceful, flexible, and committed staff are working for the County
- ✘ Richland County's staff care deeply about public service, customer service, and engaging with citizens and residents
- ✘ The County is in a positive financial situation with a Triple A credit rating and growing tax base
- ✘ Population growth is a positive external factor benefiting the County
- ✘ The County provides a stable workplace environment by ensuring employees did not lose benefits or pay during the pandemic

(What might benefit from positive change?)

- Technological advancements and need for more uniform systems and processes across departments
- Retaining valuable employees and growing the County's employment to support quality service delivery
- Improvement to the County's facilities and infrastructure
- Improvement in becoming employer of choice with well-funded departments and competitive pay practices
- Training, development, and succession planning for County employees
- Increased communication between departments, Council, and the community

## PLANNING PROCESS OVERVIEW

Effective strategic planning involves gathering, sorting, and prioritizing the best thinking of the Richland County's policy leaders and executive managers, focused on the core purposes of the organization and the most important attributes of success. The first Richland County strategic planning workshop, conducted in November 2021, resulted from agreement on a framework to guide the decision of both elected leaders and appointed managers over the next three to five years. The elements of that framework include:

- **Brainstorming** the core elements of the County organization's vision, mission, and strategic goals (among other items) while also considering evidence of success.
- An **examination** of the current operational environment and the identification of important external forces and trends that influence and impact the County ability to meet citizen expectations.
- **Assessment** of the organization's strengths, weaknesses, opportunities, and threats.
- Development of six strategic goals and the **identification and prioritization** of 30 operational objectives around which key policy decisions can be evaluated and essential organizational and operational initiatives can be managed.

The strategic planning workshop focused primarily on **What** the County needs to realize its vision for the community's future and accomplish the mission of the organization. Therefore, the strategic planning process is policy-oriented in nature and less about **How** the County should carry out the day-to-day operations and delivery of public services.

Good strategic planning addresses the issues that challenge you today and, more importantly, those that will challenge you tomorrow. Accordingly, the initial planning workshop was designed as an exercise in collective foresight. Both elected leaders and appointed managers worked together to clarify what success looks like for Richland County in-light-of expected future conditions and the direction that the community's policy leaders want to take the County organization.

## INITIAL WORKSHOP EXPECTATIONS

After an initial ice-breaking activity, the workshop facilitator engaged the participants in a brief conversation about their expectations for the workshop. Using an online polling application, participants were asked, **"In a brief phrase, what do you hope to achieve over the course of the strategic planning workshop?"**. The 17 responses by County Council members and the Directors and staff are listed below, the most common of which included the desire to develop clear goals.

- Identify grant strategies
- Gain clarity on goals
- Engage in future-plan creation
- "Knowing which way to row"
- Development of a road map
- Gain more clarity on the big vision for the County
- Address alignment of funding with the mission
- Hear from colleagues about their priorities
- Develop a clean and actionable plan to move the County forward cohesively and purposefully
- Generally, agree on whatever we all decide
- Establish clear goals
- Generate excitement and pride for the future of the county
- Address better pay for county employees
- See what IT needs are from all departments
- Create a plan that reflects the reality of the influences on the County
- Formulate a clearer direction for the ever-growing and demographically changing area
- Address staff retention and growth

A word-cloud displayed on the next page shows the result of the polling activity generated when facilitators asked, **"What one word best describes your vision for the future of Richland County?"**. The larger text represents the more frequent responses. These results suggest that the workshop participants were looking for the following themes as main elements of the strategic plan:

- Establish an **inclusive** working environment and consider inclusivity throughout the strategic plan
- Operate in a highly **effective** manner internally and externally
- Become a **leader** in various respects, allowing the County to further its mission
- Consider **ethical and equitable** approaches while navigating **evolving** circumstances

## STRENGTHS, WEAKNESSES, OPPORTUNITIES, THREATS (SWOT) ANALYSIS

For the SWOT analysis, workshop participants were asked to consider attributes of the Richland County organization critically and constructively.

- **Strengths** are those assets and capabilities currently available within the organization, which can be leveraged to achieve desired results.
- **Weaknesses** are those problem areas or aspects of the government organization that are currently standing in the way of strategic success, and that should be overcome to achieve optimal results.
- **Threats** are current or potential future external events that, if unmitigated, can impair the organization's ability to realize strategic success. These may be political, economic, societal, natural, or man-made in nature.
- **Opportunities** are future-focused and are conditions that can, if properly understood, be captured to obtain strategic advantage through capitalizing on strengths, overcoming problems and mitigating threats.

The SWOT matrix on the following page displays the consensus Strengths, Weaknesses, Opportunities and Threats identified by the Richland County leadership team.

# SWOT MATRIX

In the SWOT analysis, the "Opportunities" section is often the most revealing in terms of the desired future direction of the organization and the community. To identify opportunities, the strategy workshop participants considered the things that need to be achieved to take advantage of the organization's strengths and community, overcome weaknesses, and mitigate or minimize threats.

Strategic opportunities identified through this process included the following:

- Celebrate the wins of the County more often
- Grow as an organization physically and operationally, and in staffing and expertise
- Utilize federal funding that the County receives
- Leverage and rely on employee talents
- Follow and adhere to the strategic plan currently being developed
- Apply a proactive approach more regularly
- Continue positive impacts the County is currently producing
- Establish positive relationships with community partners and stakeholders
- Engage major companies and their executives to facilitate local growth within the County
- Collaborate with and leverage new Council members and their ideas
- Establish new policies and systems

## VISION, MISSION, AND EVIDENCE OF SUCCESS

An organization's **Vision** is aspirational in nature. It defines what the organization wants to be or to achieve. It is an idealized description of the desired future state of the community. The County Council members completed a structured visioning activity, using photographic imagery to spark conversations and develop concepts regarding their shared vision for Richland's future.

The results of this visioning activity are shown below:

- Creating a **well aligned** and valuable strategic plan is a puzzle that needs to be completed together.

- Foundational and historical
- Level of impact is a big factor of motivation

- Working together is essential
- Not much possible without collaboration

- Having a celebration while connecting with the arts
- Prosperity is indicative of ease

- A well-designed system that is thoughtful and works efficiently

- Need for "Wash and wear" common thinking
- Don't need fancy solutions for every issue
- Simplicity is key

- Standing the test of time
- Place of learning, using examples from the past
  
- “In this together” as a team
- New heights to be reached
- 10,000 ft view/ big picture
  
- Foundation for future
- Benefit for people behind you
- Accessibility
- Destination as Richland County

- Big picture to assess where to go
- Seeing what has been done in the past
- Tying the present with the future
  
- Preparing for the Future
- Connect yesterday with today
- Learning from the past is essential
  
- Longevity, perseverance, purposeful, methodical, and harmless

es best describe to County Council n

chosen by different members, stated the same foundation and legacy themes. Similarly, togetherness and understanding situations from a high level were raised through the hot air balloon photo and the skydiver photo. County Council members also share an understanding of simple solutions to complex puzzle like problems and how this may enable the County to generate more learning experiences and “wins” in need of celebrating.

A **Vision Statement** is an emotional or idealistic statement describing the intended future of an organization. Vision statements are meant to better ground the organization and hone-in on what inspires the future direction. Richland County’s most recent vision statement was created in 2009 and reads:

**“Richland County will be a model community for the state and nation. Our county will be a safe, diverse, and sustainable community, with a thriving economy that provides opportunities for all residents to live, work, learn, and grow.”**

A draft of the new vision statement reads:

**“Richland County will be a leading community creating for equitable, sustainable, and meaningful opportunities for a high quality of life for all residents. The County will be a foundation for collaboration as we learn from the past and continue to create long-lasting impacts into the future.”**

A **Mission Statement** describes the organization's purpose. It defines the "business" of the organization and its relationship with its customers. Council members briefly reviewed a set of possible mission statements to replace or alter the current mission statement. Council members were asked to rank their top few options, identifying which mission statements were most widely praised among the group as well as key words that influenced those selections.

	concern for the present and excitement for the future.		

In addition, of the key words from these existing mission statements, the Council members in open discussion outlined other key terms that should be used to design a new mission statement including the following:

- Additional planned processes
- Social, physical, and economic sustainability
- Addressing the needs of the people we serve
- Excitement
- Partnerships through collaboration and cooperation
- Continuity of services

After understanding the sentiments arising from each of the themes highlighted and by using the previous mission statements structures and key word recommendations, Baker Tilly was able to generate a new draft version of the Richland County Mission Statement. The previous Richland County mission statement reads:

**“Richland County Government is dedicated to providing services that are accessible to all residents and improve the quality of life in our community.”**

A draft of the new mission statement reads:

**“The County Government is dedicated to providing exceptional public services through effective planning, proactive leadership, and inclusive governance to ensure that all residents, visitors, and businesses have equitable opportunities and improved quality of life today and in the future.”**

Next, facilitators distinguished what “success” through the strategic plan would mean. By creating a list of success metrics as evidence of complete priorities, the Council is better able to assess ways success is achieved from their strategic plan. Council members listed the following **evidence of success**:

Livable wages for all	Efficient decision making
Positive media coverage and percentage increase, positive media relationships	Public satisfaction with County projects
Defined identity and Council / Community shared vision	Leveraging assets and population increase
Increased economic growth and public satisfaction	Quality of life for residents
Improved technology and building infrastructure	Community pride
Equity in infrastructures	Business revenue increase
Positive business climates	Collaboration and communication internal and external
Retain employees and increase morale	Model for other communities
<u>Growth in individual wealth and income</u>	<u>Advanced opportunities for equity, diversity and inclusion</u>

## STRATEGIC GOALS AND OBJECTIVES

After evaluating the strengths and weaknesses of the organization, identifying opportunities and threats, and confirming the Richland County overall vision, mission and evidence of success, workshop participants next turned their attention to the specific areas of policy leadership and management focus that they believe are likely to have the most significant impact on the long-term success of the community and the municipal organization.

To identify these strategic focus areas, the workshop facilitator applied a technique known as "future pull." The workshop leader challenged the participants to go forward in time to imagine great success mentally. Participants were then asked to visualize a situation where the County had achieved its vision by successfully accomplishing its mission while operating within its value framework. Then they were asked:

***"Looking back from a position of great success, what, specifically, did the County do to achieve that success?"***

Each participant listed the action steps that, if taken today, would lead the County to that future position. They thought about how to leverage the identified strengths to overcome problems and how to mitigate threats to create opportunities. Many unique ideas were generated. Working together, County Council members then grouped the ideas on a graphical chart to reveal common strategic themes.

From this brainstorming and collaborative process, six strategic goals emerged as the most important for Richland County's future:

### STRATEGIC GOALS

- 1) Foster Good Governance
- 2) Invest in Economic Development
- 3) Commit to Fiscal Responsibility
- 4) Plan for Growth through Inclusive and Equitable Infrastructure
- 5) Achieve Positive Public Engagement
- 6) Establish Operational Excellence

Within each of the goals, a set of **strategic objectives** were developed and discussed using the ideas generated by the council and staff participants in the "future pull" brainstorming activity.

A total of 30 individual objectives were identified through this process and were then ranked by the County Council members using real-time polling to establish overall priorities for each goal.

The strategic goals, with supporting objectives listed in the priority order, include the following:

***GOAL 1 – Foster Good Governance***

- 1.1 Develop realistic and achievable goals
- 1.2 Create a shared vision with agreement by County leadership
- 1.3 Establish metrics for accountability in implementing the strategic plan
- 1.4 Reevaluate strategic plan and adjust as needed
- 1.5 Collaborate with other governments

***GOAL 2 – Invest in Economic Development***

- 2.1 Create high paying jobs from planning growth and strategic economic development projects
- 2.2 Develop more shopping and amenity options
- 2.3 Promote and support a regional and state Economic Development team

***GOAL 3 – Commit to Fiscal Responsibility***

- 3.1 Align budget to priorities and seek alternative revenue sources
- 3.2 Assess necessary resources
- 3.3 Balance budget with projects that do not affect minimum thresholds

***GOAL 4 – Plan for Growth through Inclusive and Equitable Infrastructure***

- 4.1 Establish plans and success metrics that enable smart growth
- 4.2 Coordinate departments to prepare for planned growth in areas by providing water, sewer and roads in necessary locations
- 4.3 Create excellent amenities and facilities
- 4.4 Provide equitable living and housing options

***GOAL 5 – Achieve Positive Public Engagement***

- 5.1 Champion the organization and County wins
- 5.2 Foster positive public relationships to allow us to “tell our own story”
- 5.3 Create a Public Information team focused on public engagement
- 5.4 Complete and celebrate penny projects to create excitement in the community
- 5.5 Communicate vision and mission throughout County and residents
- 5.6 Involve residents in community engagement plan development
- 5.7 Ensure residents clearly understand what County Government functions are

## GOAL 6 – Establish Operational Excellence

- 6.1 Establish competitive salaries
- 6.2 Encourage investment in employee and County development
- 6.3 Modernize technology
- 6.4 Address employee related matters
- 6.5 Develop metrics of accountability to “stay the course”
- 6.6 Create reporting dashboards
- 6.7 Address current and future resource needs
- ~~6.8 Build a new courthouse / Develop proactive maintenance plans~~
- 6.8 Define and develop plan to ensure equitable services for all citizens that furthers diversity and inclusion.

## “BOLD STEPS”

### *Taking Richland to the Next Level*

After identifying and agreeing on the six strategic goals, the workshop’s focus then shifted to “Taking Richland to the Next Level” by generating a bold steps graph. Each of the six strategic goals and the 30 corresponding objectives are organized along with the main three vision elements and vision phrases from the visualization exercise.

# BOLD STEPS

## FINAL STRATEGIC PLANNING WORKSHOP

Baker Tilly then facilitated an additional workshop session in January 2022 to take the County Council, Senior Administrators and select staff members deeper on strategic goals and objectives. The focus of these sessions was first to discuss and validate the County’s mission and vision statements developed since the November 2021 workshop, and also to adopt core values and identify key “initiatives”.

Participants identified **core values** to define what the County Council’s collective belief is and words that describe how these beliefs influence their vision and mission. These five core value words and their descriptions were amended from the *Richland County 2009 Strategic Plan*.

### Core Values

				
<b><u>Accessibility</u></b> Ensure that services are equitable, available and accessible to all residents. Foster an environment that promotes openness and welcomes participation from all members of the community.	<b><u>Accountability</u></b> Commit to providing efficient, effective, and responsible public services, proactive in approach and accountability for the results.	<b><u>DEI</u></b> Diversity, Equity, and Inclusion (“DEI”). Valuing the uniqueness of every citizen. Embrace diversity by promoting an inclusive, multi-cultural environment that serves and respects all residents equally and equitably.	<b><u>Excellence</u></b> Dedicate to exceeding the expectations of residents. Demonstrate commitment to excellence by providing the highest quality services to all residents daily.	<b><u>Proactivity</u></b> Be guided by a shared vision for our communities. Learn from our past but remain focused on our future.

The key **initiatives** are the tangible tasks that can help the County execute on the objectives and ultimately the six strategic goals. Participants brainstormed initiatives for each objective through small group conversations held with Council Members and select “subject experts” among senior staff and administrators.

Prior to this brainstorming session, several departments at Richland County submitted a list of high-level initiatives aligning with the 30 objectives across all six strategic goals. Baker Tilly received eight department submissions<sup>1</sup>.

After facilitating these discussions, all steps in the strategic planning process, described in the strategic planning process below, were complete.

When reflecting on the January 2022 workshop sessions, participants clarified language and resolved questions on the process thus far. Baker Tilly then gathered all information discussed from department submissions, working session notes, and the reflection discussion to form a comprehensive list of initiatives. Below are the results of the strategic planning process.

<sup>1</sup> Baker Tilly received initiative templates from: The Economic Development Department; The Emergency Services Department (“ESD”); The Allen S Glenn Detention Center (ASGDC); The Department of Public Works and Transportation; The Department of Government and Community Services; The Utilities Department; The Information Technology (“IT”); and The Conservation Division.

## APPENDIX C

# Strategic Goals from Richland County Economic Development Strategic Plan

## GOAL 1. GLOBAL BUSINESS DEVELOPMENT

*Position Richland County to compete with any community in the nation for high-quality investment and jobs.*

Attracting new investment and jobs to Richland County is essential to expanding the County's tax base. RCEDO has demonstrated its ability to recruit new investment projects in recent years, even during the COVID-19 economic crisis. Richland County is well positioned to continue competing for new jobs and investment due to its County-owned/controlled industrial sites, transportation access (commercial airport, interstate highways, Class I railroads), robust utility infrastructure, multiple institutions of higher education, and financial incentives. Richland County is also a primary cog in a broad network of economic development organizations serving the Columbia region and the I-77 corridor.

Cementing Richland County's ability to compete with any community in the nation for high-quality investment and jobs will require ongoing investments in real estate product and financial tools. RCEDO should also be more proactive in business development and lead generation, including direct outreach to decision-makers in target industries and site selectors.

- 1.1.** Build relationships with real estate brokers and site selectors. The perception survey revealed a gap in awareness among site selectors, especially those located out-of-state, of Richland County. This weakness cannot be fully solved by regional marketing and branding efforts. It will require more direct business development efforts by RCEDO to increase awareness of sites, developments, and investment opportunities in Richland County.
  - 1.1.1.** Build and maintain RCEDO's existing database of national and regional developers, brokers, and site consultants. The database used for the perception survey provides a good foundation.
  - 1.1.2.** Schedule regular trips to call on the site consultants in targeted metropolitan areas, such as Atlanta, Charlotte, Chicago, and Dallas-Fort Worth.
  - 1.1.3.** Host events, periodically, in Richland County that highlight specific assets, such as County-owned sites, buildings, or new projects.
  - 1.1.4.** Continue maintaining and updating data and information of interest to commercial and industrial site selectors on the RCEDO website.
- 1.2.** Generate leads for economic development prospects from nontraditional sources.
  - 1.2.1.** Obtain lease expiration data in competing cities. Send marketing materials to companies headquartered in these markets whose leases are expiring within 24 months.
  - 1.2.2.** Utilize Google Alerts to get news updates on companies in target sectors that are considering expansion, relocation, or consolidation. For instance, create alerts for terms such as "insurance

headquarters relocation.”

- 1.3.** Position Richland County as a desirable landing spot for emerging companies in larger southeastern metros, such as Charlotte and Atlanta.
  - 1.3.1.** Target successful startups in business incubators/accelerators in other markets that are on the cusp of outgrowing their existing spaces and could be positioned for expansion/relocation to Richland County.
  - 1.3.2.** Monitor high-growth, innovative companies in those markets that have recently received venture capital funding.
- 1.4.** Develop potential investment leads through the business and retention (BRE) program.
  - 1.4.1.** Inquire, during BRE visits and events, about existing business vendors and suppliersto uncover supply chain recruitment opportunities in target sectors.
  - 1.4.2.** Include the project manager in BRE visits with major employers.
- 1.5.** Work with Experience Columbia SC and other regional partners to develop a conference and meeting strategy linked to targeted occupations, groups, and industries. This is a strategy recommended in the Deloitte plan.
  - 1.5.1.** Identify industry associations within each target industry and encourage them to consider the Columbia region as a destination for annual events and meetings.
    - Engage talented professionals—conferences and meetings hosted locally are an excellent opportunity—in a conversation about how they can pursue their careers, start a company, or relocate an existing business to the region.
- 1.6.** Continue utilizing financial incentives and tools to compete for new investment, business expansions, and talent. Richland County’s high property tax rate—the third highest average rate in the state—puts the County at a significant competitive disadvantage for large capital investment projects, especially in manufacturing. Consequently, the County must offer generous financial incentives to overcome the property tax disadvantage. The Deloitte plan provided many recommendations related to city, county, and state incentives in South Carolina that could benefit the Columbia region. Two are listed.
  - 1.6.1.** Develop a County incentive more geared toward knowledge economy-based sectors. The Deloitte plan suggests broadening incentive definitions for qualified businesses, full-time equivalent employees, and the term “development” within research and development (R&D) incentives to prioritize knowledge-based businesses and sectors.
  - 1.6.2.** Develop an incentive designed to attract and retain talent in key occupations. Many stakeholders described the difficulty of attracting and retaining skilled and educated science and technology professionals in the Columbia region. Several states and communities have created various forms of financial incentives that involve repayment/subsidies for student loans or housing for new residents who remain in the community for a specified period. Like Columbia, the city of Birmingham, Alabama, struggles to retain and attract skilled technology professionals. In response, the city established a series of talent-focused incentives, including the Talent Investment Program, which supplements employer wages for occupations where demand consistently outstrips supply.
- 1.7.** Continue expanding the quantity and the types of real estate product sought by businesses across sectors. The lack of available industrial sites has long been a challenge to accommodating new large-scale investment in Richland County. In recent years, Richland County has attempted to address this competitive weakness by assertively acquiring industrial and commercial property in the County. As a result of its investment strategy, the County now

owns or controls over 2,300 acres of prime industrial property, spanning three business parks and one site. These properties, especially the 1,349-acre Blythewood Business & Industrial Park, preserve a long-term supply of high-quality industrial land in the County.

**1.7.1.** Work with Richland County Planning & Zoning and municipalities to protect the limited supply of industrial-zoned land in the County. Rapidly expanding housing construction in some areas of the County threatens to encroach on the limited amount of industrial-zoned land. Once industrial land has been rezoned and developed for housing, it is effectively no longer available for industry.

**1.7.2.** Collaborate with local partners and institutions to develop technology corridors in Richland County. Such corridors often seek to combine physical spaces, broadband infrastructure, anchor institutions, amenities, events, networks, and incentives to become a magnet for knowledge-based sectors, businesses, and entrepreneurs. There are numerous examples of such corridor development initiatives around the nation. Some are publicly initiated, and some are privately developed.

**1.8.** Target strategic growth sectors for new and expanded investment. RCEDO's business development program has experienced the most success in targeting the manufacturing, logistics, contact center, and insurance sectors. The Deloitte plan was tasked with analyzing and recommending knowledge-based sectors (financial services, software & information technology [IT] services, healthcare IT, aerospace, biotechnology, and medical devices) and value chain segment intersections (R&D, business operations, manufacturing, distribution, commercial activities, headquarters). TIP recommends RCEDO also pursue the following strategic growth sector opportunities.

**1.8.1. DIGITAL TECHNOLOGY.** The global COVID-19 pandemic will accelerate the demand for more data centers and cloud storage as companies and workers transition to working remotely. Telecommuting will likely be widely embraced as employers and employees become more comfortable with working from home. Virtual meetings will become prevalent as executives and managers recognize that they can reduce travel and still conduct business. Richland County is well positioned to benefit from the increase in demand for cloud storage and data due to its available land, abundant water, and competitive electricity rates.

**1.8.2. FOOD AND BEVERAGE PROCESSING.** The production of specialty foods and beverages remains one of the fastest-growing sectors in the US. Growth in emerging markets and urbanization, increasing consumer focus on health, and increasing demand for convenience foods signal favorable conditions for continuing and even accelerated growth in the food processing sector. Moreover, regardless of economic conditions, people still require food and beverages. Richland County's water and sewer capacity, transportation infrastructure and access, and proximity to major urban areas make it a competitive destination for food and beverage processing.

**1.8.3. MANUFACTURING IT.** COVID-19 is accelerating the swift transition to the Fourth Industrial Revolution (Industry 4.0), which involves the utilization of rapidly advancing digital technologies into production processes. Technologies such as artificial intelligence, process automation, Internet of Things, cybersecurity, big data, additive manufacturing, and augmented reality are completely reshaping the global manufacturing sector. One of the Columbia region's strengths is the manufacturing IT technical expertise present in the region. This not only represents a unique industry strength on which to build, but there is a tangible benefit of helping existing manufacturers in the region become more innovative and resilient.

## GOAL 2. EXISTING BUSINESS RETENTION AND EXPANSION

*Foster a more resilient, innovative, and dynamic base of existing businesses in the County.*

A strong business and retention (BRE) program is the foundation of any economic development program. Research from the US government has shown that the bulk of job flows result from the expansions and contractions of existing businesses. An effective BRE program is especially crucial in the current economic crisis caused by the COVID-19 pandemic. RCEDO's immediate priority is to help businesses survive until normal economic activity resumes. For example, RCEDO distributed 500 thermometers to existing businesses to help make their facilities safer for workers and customers. Ensuring the long-term success of existing companies also aids business attraction, as firms considering relocation options will often talk to existing firms in the community.

RCEDO's existing business program seeks to be a general resource for employers, helping to coordinate help and resources to companies needing assistance. The program primarily focuses its outreach to businesses in the manufacturing and logistics sectors. Other components of the BRE program include a business visitation program, a wage survey, business-to-business (B2B) original equipment manufacturer (OEM)/supplier matchmaking events, and hosting industry council meetings. This plan advocates for building a more robust BRE program by raising its profile among the business community, expanding outreach to knowledge-based sectors, creating a business visitation questionnaire, publishing a regular BRE report, and capturing business development intelligence through interactions with existing businesses.

- 2.1.** Raise the profile of the BRE program within the region's business community.
  - 2.1.1.** Establish an identifiable brand name for the program that resonates within the business community. The Charleston County Business Concierge Program is an example of such a branded program. Creating a unique brand name will make the program more recognizable within the business community and will hopefully result in greater participation. It also reinforces the message that RCEDO values existing businesses and is not solely focused on recruiting new companies.
  - 2.1.2.** Organize reoccurring events throughout the County that bring in multiple businesses, especially in the same industry or at the same size. For example, hold off-site information and networking events at locations where multiple business are located, such as a business park or an office building. Such events could feature guest speakers, refreshments, and information about RCEDO's existing business program services.
  - 2.1.3.** Create a quarterly BRE report that highlights the program's activities, summarizes discernable trends, and communicates local business success stories.
  - 2.1.4.** Communicate success stories that result from BRE visits. Such successes might not translate directly to new job creation or increased capital investment, but they can still be quite valuable to existing businesses. Examples could include assistance with permitting, workforce training, or infrastructure challenges.
  - 2.1.5.** Report on local business success stories via RCEDO's social media accounts.
  - 2.1.6.** Feature testimonials from business executives whom RCEDO has assisted on its website, in reports, and in social media.

- 2.2.** Bolster the business visitation program to build relationships with major employers. The visits should be structured to gauge the abilities and needs of local businesses and to educate them about resources and services offered by the County.

- 2.2.1.** Continue the annual goal of meeting with 100 businesses in the County.
- 2.2.2.** Maintain a virtual business visitation program until the COVID-19 health crisis recedes.
- 2.2.3.** Create a brief questionnaire for use during business visitation that captures a base set of standard information and metrics that are consistently captured and entered into the customer relationship management (CRM) database. The meeting, however, should not be guided by scripted questions. Moreover, if meeting with the business owner/chief executive, avoid questions that can be answered from a secondary source or by someone else in the company. Basic questions should inquire about these topics.
  - ☐ Business climate concerns.
  - ☐ Training and technical assistance needs.
  - ☐ Employment growth/contraction over the past year and future hiring plans.
  - ☐ Site/facility expansion plans.
  - ☐ Industry trends.
  - ☐ Primary markets served (domestic and foreign).
  - ☐ Supply chain opportunities (that could be filled by local companies or through new recruitment).
  - ☐ Adoption and utilization of new technologies in production processes (e.g., artificial intelligence, big data, cybersecurity, augmented and virtual reality, robotics and automation, additive manufacturing/3D printing, cloud computing, and the Internet of Things).
- 2.2.4.** Act as a concierge to priority businesses to help them navigate processes within other County departments.
- 2.2.5.** Establish relationships with employers headquartered outside of Richland County by meeting face-to-face with headquarters executives.
- 2.3.** Expand the pool of existing businesses that RCEDO has interacted with in the past.
  - 2.3.1.** Identify companies in the County that serve external markets or are suppliers/service providers to existing businesses.
  - 2.3.2.** Broaden contacts and interactions with companies in knowledge economy-based sectors, such as financial services, life sciences, and information technology.
  - 2.3.3.** Increase efforts to reach out to women-owned firms and minority-owned firms, many of which are facing greater challenges through the current economic downturn than other businesses.
  - 2.3.4.** Use recent County emergency COVID-19 grant and loan funding applications as a source of up-to-date business intelligence to target programs and support to local companies with the greatest needs.
  - 2.3.5.** Connect with businesses outside of the urban core, especially in unincorporated areas of the County.
- 2.4.** Prepare and administer an annual online “take the pulse” business survey as a means of keeping in touch with local businesses and documenting specific needs or expansion plans. This survey would supplement the

information and data generated by in-person visits. Include questions on the survey for employers regarding their attitudes toward the business climate, talent availability, and workforce quality in Richland County.

## GOAL 3. COMMUNICATIONS AND MARKETING

*Engage in a comprehensive campaign to raise awareness of Richland County's advantages and RCEDO's successes.*

A common theme that was heard from stakeholder input was the need to do a better job of increasing awareness of the region and telling success stories. In addition, one of the central findings from the site selector perception survey was that the region lacked an identifiable brand that competitors like Charleston and Greenville enjoy. Moreover, some out-of-state site selectors were not able to associate Richland County with the Columbia region. RCEDO has not traditionally engaged in high-profile marketing efforts, either on behalf of Richland County or itself. The RCEDO team does not currently include a position focused on communications and marketing. While RCEDO should continue to utilize Central SC Alliance as a primary partner for regional economic development marketing, it should take a more active role in crafting a regional brand and increasing awareness of Richland County among target industry decision-makers and site selectors.

In addition, RCEDO should more assertively tell its own story within the region, including its business attraction, retention, and expansion successes. Making the citizens and the business community of Richland County more aware of its contributions to economic growth and prosperity will generate greater support for economic development. Another need is informing and educating County-elected leadership about RCEDO's mission, activities, and achievements. This will require more frequent engagement with Council members, collectively and individually.

As currently structured, RCEDO does not have the capacity to pursue any substantial marketing and communications activities. Therefore, the organization will need to add a dedicated communications and marketing specialist to the team. This recommendation is discussed in the Internal Structure section of this plan.

**3.1.** Establish a digital marketing campaign to highlight Richland County's economic development advantages and success stories. Develop baseline digital marketing tools and engage in regular digital marketing activities, including the following.

- ☐ Infographics created to visually highlight the County's core assets and advantages.
- ☐ Periodic LinkedIn Pulse articles that describe the County's competitive business advantages, using interviews with existing businesses to tell their stories.
- ☐ Weekly Facebook, LinkedIn, and Twitter posts linking to the Pulse article.
- ☐ Brief YouTube videos created to highlight what makes Richland County a great community for businesses and residents.

**3.2.** Be more assertive in telling success stories that resulted from RCEDO efforts.

**3.2.1.** Publish a quarterly newsletter that highlights RCEDO activities and success stories.

**3.2.2.** Pursue a public relations and communications campaign targeting regional and state media outlets.

- ☐ Cultivate and maintain relationships with regional and state media outlets.
- ☐ Pitch story ideas and share current news with the aim of generating more coverage for RCEDO and Richland County.

- 2 Broadcast business successes in state and regional publications through press releases and editorials.
- 3.2.3. Organize and host an annual business appreciation event.
  - 2 Highlight local business achievements and enlist County-elected leaders to give awards to local businesses in different categories.
- 3.3. Assume a higher profile in regional meetings, conferences, and gatherings.
  - 3.3.1. Seek public-speaking opportunities for the director and the deputy director.
  - 3.3.2. Consider high-profile sponsorship opportunities that highlight RCEDO.
- 3.4. Work with the County administration to identify new opportunities for the director and the deputy director to interact with council members outside of routine project update presentations.
  - 3.4.1. Provide an orientation for newly elected council members about RCEDO strategic priorities, initiatives, activities, and successes.
  - 3.4.2. Make a regular presentation to the Richland County Council during retreats.
- 3.5. Partner with allies to enhance and promote the region's economic development brand.
  - 3.5.1. Encourage allies to develop a regional economic development brand that more directly connects to Columbia. This would address a finding from the site selector survey that Richland County and central South Carolina lack an easily identifiable image and brand outside of the state.

## GOAL 4. STRATEGIC AREAS OF INFLUENCE

*Commit targeted resources and work with regional allies to support workforce development, entrepreneurship, community development, and economic equity in the region.*

Beyond the main goals of business development, BRE, and marketing, there are several other critical issues that economic development organizations often address. However, with a relatively small staff and constrained operational funds, RCEDO is limited in its practical ability to programmatically impact needs such as workforce development, entrepreneurship and innovation, community development, and economic equity. There are other departments and organizations in the region that specialize in these areas. Still, as the chief economic development organization in the County and a crucial participant in the Columbia region, RCEDO does have a role to play. It might be an indirect role that involves financial support for outside initiatives or participating in regional efforts organized around these integral issues.

**4.1. EQUITABLE AND INCLUSIVE GROWTH.** Traditionally, equitable growth and development have been viewed as the responsibility of the community development and workforce development departments within public agencies; however, this notion is changing. The rising social justice movement, as well as the disproportionate impact of the COVID-19 crisis on vulnerable populations, has caused the economic development profession to take a more active and deliberate approach to expanding opportunity for people of color. Full participation of people of color in the economy is associated with greater economic prosperity for everyone. Recent research commissioned by the W.K. Kellogg Foundation indicates that \$325 billion could be added to state and local tax revenues in the US by increasing the earnings of people of color.<sup>2</sup> The following strategies offer ways for RCEDO to address inclusion and equity more fully in its program.

- 4.1.1. Coordinate with multicultural organizations in the Columbia region to provide targeted information for businesses owned by women and people of color.

- ❑ Research indicates that these small business owners face structural exclusion from traditional sources of capital and aid packages, including the US Small Business Administration (SBA) Paycheck Protection Program.

- 4.1.2.** Consider the use of community benefit agreements (CBAs) for large-scale developments or major business attraction in Richland County. CBAs require businesses and developers to commit to providing benefits to economically distressed communities so that residents are not displaced from their neighborhoods and are able to access economic opportunities that the new employer or development will provide. Examples of benefits include commitments to job training and hiring, living wages, affordable housing, transit integration, and philanthropic giving to local communities.
- 4.1.3.** Track social and economic demographics of participants in RCEDO's programs and events. Set goals for increasing diversity among participants. RCEDO should also hold events in areas of the County so that a more diverse set of business owners and residents are able to participate.
- 4.1.4.** Highlight businesses owned by women and people of color in marketing materials and through digital marketing channels to increase awareness and promote their successes.
- 4.1.5.** Work with regional partners to disaggregate social and economic indicators by race and income levels to show how vulnerable populations are faring in comparison to other segments of the population. Such indicators could include the following parameters.
  - ❑ Broadband access by neighborhood.
  - ❑ Eviction rates.
  - ❑ Household composition by educational attainment.
  - ❑ Transfer payment recipients.
  - ❑ Employment in occupations paying a living wage.
  - ❑ Better understanding of specific needs, such as childcare.

**4.2. WORKFORCE.** Access to talent continues to be the top site selection factor for companies planning new facilities, expansion, and/or relocation. According to The Conference Board's annual survey, the top internal issue concerning chief executive officers (CEOs) and C-Suite leaders is attracting and retaining top talent at all levels of their companies.<sup>3</sup> Talent availability outranks other issues, including adaptation to disruptive technology and cost reductions. Consulting team interviews with Richland County employers reinforced that workforce is a vital economic development issue in the Columbia region. Indeed, workforce is one of the four pillars of the Deloitte Development *Columbia's Economic Development Action Plan*, which recommends a substantial number of workforce, training, and education strategies for the region's large network of organizations and institutions engaged in this pillar to implement. RCEDO's immediate role in addressing workforce is focused primarily on connecting employers with available assistance and resources, financially supporting local initiatives, and helping to anchor transitioning military personnel in the region and connecting them with employers.

- 4.2.1. Support the talent recruitment efforts of major employers by providing them with marketing resources that effectively promote Richland County to potential employees. Marketing materials should cover topics of interest, including housing, education, entertainment, and recreation.
- 4.2.2. Engage directly, through the BRE program, with regional employers to identify specific talent and workforce initiatives and connect them with state and local assistance and resources.
- 4.2.3. Continue to financially support innovative talent initiatives such as Create Opportunity Columbia.
- 4.2.4. Connect military personnel separating from service in the region with local employers. This aligns with the Deloitte plan recommendation to form a metro area military employment partnership.
  - 2 Work with regional economic development and workforce partners to create a Fort Jackson Veterans Inventory Initiative for soldiers transitioning from Fort Jackson to civilian life. See the case study in Appendix C for a description of the veterans inventory initiative at Fort Hood, Texas.

#### FORT HOOD REGION VETERANS INVENTORY INITIATIVE

In 2006, the city of Killeen, Texas, and the Greater Killeen Chamber of Commerce (GKCC) partnered with TIP Strategies to craft a regional plan (named Operation Economic Transformation) that would reduce the region's military-related economic dependency while simultaneously building on the region's growth opportunities associated with Fort Hood. One outcome of this plan was the creation of the Fort Hood Region Veterans Inventory Initiative (FHRVII) survey, which continues to be administered on a quarterly basis. FHRVII captures information from soldiers who are about to separate from the military. The survey asks questions about their educational levels, skills, post-separation career plans for them and their spouses, and suggestions to improve the area's quality of place. Once the results are compiled, the results are sent to local partners so that they can highlight the incoming talent pool for economic development marketing and in responding to investment request for proposals (RFPs). Inspired by GKCC's efforts, Joint Base San Antonio (JBSA) began its own survey in 2018, modeled after the FHRVII, and recently completed its third assessment.

4.3. **ENTREPRENEURSHIP AND INNOVATION.** Building a more robust and competitive regional entrepreneurship and innovation ecosystem is also one of the four pillars in the Deloitte plan for the Columbia region. As the County and the region seek to create a more diversified and dynamic economic base, it is crucial to establish an environment and the support structures that enable entrepreneurs to thrive and businesses to innovate. RCEDO should continue its efforts to strengthen ties and collaboration with higher education and to also connect entrepreneurial companies with resources and expertise.

- 4.3.1. Deepen collaborations and ties with area colleges and universities.
  - 2 Align business attraction and retention efforts in knowledge-based sectors with research priorities and capabilities at the University of South Carolina and other R&D organizations in the region.
  - 2 Continue enlisting the support and expertise of university researchers and officials with

appropriate investment prospects.

- 2 Continue providing financial support to university-led accelerator programs.

- 4.3.2. Assist entrepreneurial companies, through the BRE program, to scale-up by connecting them with local and state resources and expertise.
- 4.3.3. Tell entrepreneurial success stories. An important component of building an entrepreneurial culture is making residents aware of how entrepreneurship can help to drive the economy. This message is best communicated by raising awareness of business success stories, both internally and in target markets.
- 4.3.4. Support youth entrepreneurship programs at local school districts to foster a culture of innovation and cultivate an entrepreneurial spirit. Entrepreneurship education is especially pressing for helping the County's low-income and minority youth to develop skills and knowledge that will support their future successes and benefit their communities.
  - ☐ The National Consortium for Entrepreneurship Education provides resources and technical assistance for entrepreneurial education. (<http://www.entre-ed.org/>)

**4.4. COMMUNITY DEVELOPMENT AND PLACEMAKING.** The attraction and retention of businesses alone is not enough to make communities into vibrant destinations where people can live, work, and thrive. Increasingly, the economic development community is focused on quality of place—a more holistic conception of a community's attractiveness and livability that integrates physical space, cultural amenities, and social experiences. Quality of place is essential to creating dynamic and vibrant communities, and placemaking is the process of creating quality places. Successful placemaking is vital to effective business development and talent attraction. For example, COVID-19 has accelerated the trend of remote working. As people are more able to work remotely, their choices about where to live are made not about where their companies are located, but instead about what lifestyle they want to have. To this end, RCEDO should work with the Richland County Planning and Development Department to ensure that the County's economic development, land use planning, and placemaking efforts are aligned and mutually supportive.

- 4.4.1. Reestablish a regular quarterly meeting between RCEDO and the Richland County Planning and Development Department to exchange updates and collaboratively identify where and what types of future industrial, mixed-use, and commercial development should be targeted.
- 4.4.2. Work with Richland County Planning and Development Department and municipalities to protect the decreasing supply of industrial-zoned land in the County. (See Strategy 1.7.1.)
- 4.4.3. Highlight Richland County's quality-of-place assets (e.g., cultural, entertainment, historic, natural, recreational, events) within business development marketing materials.
- 4.4.4. Encourage private developers to incorporate place-based amenities into new employment center developments.
